New York Central, Southern Railway Shares, and Coalers Firm. Opposition to Northwestern Deal Little Heeded.

NEW YORK, Nov. 21 .- The Stock Market opened active and displaying very irregular tendencies. London was only a small factor in this market. irregular price changes appearing from that quarter, while the transactions here for foreign account were limited, and in both market directions.

There was nothing in the news of the morning calculated to shape sentiment one way or the other, and scant attention appeared to be paid to the growth of the movement in the Northwest against the Northern securities deal. against the Northern securities deal.

Speculative confidence was still repressed to some extent by fears of higher rates for money, as a result of the continued outflow of gold, although it was not believed that the latter would continue very much longer.

The Strong Features.

The strong features of the early dealings were St. Louis and San Francisco, New York Central, Erie, Ontario and Western, and the Southern Railroad Among the local traction stocks, Manhattan was again conspicuously

People's Gas sagged again this morning. People's Gas sagged again this morning, perhaps on account of the publication of estimates setting forth that the imposition of taxes under the recent ruling of the Supreme Court will amount to about 21-3 per cent of the net earnings of the company. The locomotive securities were rather weak. Little was done among the other industrials. The Steel stocks continued stationary on a fair amount of After the first hour the market showed

The public has lost interest in th Stock Market. But for this fact ther would be little to complain of in the course of speculation. Prices held fair ly well this morning, and in some case there was even buoyancy. The tendence in the Street a day or two ago to become frightened over the attitude of the Northwestern States toward the railway dea has disappeared, and the latest announce ment of Governor Van Sant attracted lit tle attention. The fear of the financia situation also is disappearing.

The public, however, having no new ru mor of importance to grow enthusiasti over, and not being attracted by a rapid advance in prices, refuses to get into th market again. The public is, in the final analysis, the chief factor in the market, and therefore the Street does not show much jubilation at present. The market problem of the next two weeks will likely be whether the righting the contract of the next two weeks will likely whether the public can be induced to buy stocks.

The Boom in the Locomotive Stocks National Union..... The Locomotive securities were rather weak this morning, and it was said that the inside buying of the stocks has been discontinued, for the present at least. Their advance has been an important one, and even supposing that the rosy earnings statements of the friends of the company

Baltimore and Ohio Earnings. The coal stocks were again strong

There is much hopeful gossip regarding the Erie securities, which have not par ticipated in the a vaice of the anthracite group to any extent. The earnings of the company are quite as satisfactory as those of the Reading. The Baltimore and Ohio earnings at the present time are more than 10 per cent on the common stock, after all betterment charges. Dominance of the Tractions.

There has not been a market for months in which one group of securities held the attention of the street so persistently stocks. The New York tractions again this morning were bought steadily and in large amounts, and they made new high prices. Manhattan was the most buoyant of the group, but Metropolitan also showed excellent strength regaining all the loss mode yesterday afternoon. There was nothing new in the gossip regarding

the stocks. Effect of Tax on People's Gas.

People's Gas was the weak feature of corporation tax decision on the company. One statement was that the tax will be equal to at least 2 1-3 per cent on the stock of the company, and it is argued that if this proves to be true, it will be in possible to pay the present rate of dividends.

CRISIS IN STRIKE EXPECTED TODAY

EFFORT TO MOVE FREIGHT TRAINS

New York, New Haven, and Hartford Men Threaten to Extend Trouble Unless Their Demands Are Granted,

NEW YORK Nov 21 -The crisis in the trike of the switchmen, conductors, and yardmasters, who have tied up the freight usiness of the New York, New Haven, and Hartford Railroad, will be reached

The officials of the company say that freight trains will be moved today, manned by full crews, and that the strike will be broken within a short time.

Threats From Strikers. Representatives of the strikers say that unless their demands are complied with

there will be sympathetic strikes that will paralyze the freight business of the entire system and cause 5,000 men to quit their posts.

Passenger trains have been moved with little delay and what trains have not been on time have been held back by perishable freight that has been run on the passenger tracks, which do not pass through the yards at Mott Haven, Oak Point, Van Nest, and New Rochelle, where the trou-

The through express trains between Washington and Boston went through as isual this morning and the milk train, due at 10 o'clock last night, reached its destination all right. The milk was unloaded by the dealers, who worked under the protection of police and railroad de-

An Uncertain Situation.

There is no certainty whether the train crews and telegraph operators will go out in sympathy. The strike was not ordered in the regular manner. The men quit work without notifying their national officers, and the statement of grievand so much to the exclusion of other ances was made after the men had quit work. This is contrary to the rules of the Switchmen's Union.

The strikers were in session in their headquarters until a late hour last night and another meeting is in progress this morning. B. H. Morrissey, Vice President of the Trainmen's Union, of Cleveland, is expected today, and Val Fitzpatrick will also be here. First Vice Grand Master Ames, of the Switchmen's the morning, getting below 98 early in Union of North America, is at present in

dence, Norwich, Fall River, Stonington, and New Haven boats. All of these lines are controlled by the railroad, but the boats are not able to carry even a small fraction of the freight business, which at this season of the year taxes the capacity

At a rough estimate, 5,000 freight cars belonging to various roads were rendered idle yesterday and perhaps 2,500 will be

proximately correct, the strikers are inflicting an enormous loss by tving the yards u

INFORMATION WANTED.

Dogs Know the Meaning, but the

Word Is Desired. I wish some highly informed person would tell me what the word really is that we use when we gently urge a dog to attack somebody or something. I was on the piazza and the small yellow dog dozed at my feet. He does not belong to me or e would not run out at carriages as he did when a very swell one rolled by, fol-lowed by a large dog. In the carriage were three sweet young women and one sweet young man. None of them wore hats, of course, and the young man had on a flamboyant shirtwaist, with a stunning necktie that looked like two bread and butter plates set up under his chin. The yellow dog put in a good deal of fine work nipping at the big dog's heels. The sweet girls uttered many little musical squeals, and cried to their dog "Bingo, come here!" which was just what Bingo evidently longed to do had not his strict gnard of his heels prevented. Here was an opportunity for the sweet young man to shine in something more than wearing apparel. He showed those girls what a man can do by standing in the carriage, was of the girls was driving and calling in The sweet girls uttered many little musi one of the girls was driving and calling in a low voice to his dog. "Sick him!" Is the right word Sick, meaning ill; is it the Latin word, Sic, meaning thus, or are we merely shortening the work Seek when we say, "Go for him!" 2:15 Is it an Americanism or do the "barba-rians" outside use it? The dogs all seem to understand the sound.—Boston Jour-139 nal.

The sale and exportation of Italian nasterpieces of art, which is strictly for-oidden by the Italian Governbidden ment, to foreigners, and especially American collectors and conwithstanding the jealously with which the Italian Government supervises everything that passes its frontier lines for ex port. That a masterpiece but recently found its way to this country is shown in the reversal of a decision rendered by the Collector of the Port of New York, assessing a duty at the rate of 50 per cent ad valorem on statuary produced in Italy and imported into this country. This was done by the Treasury Board of Class-ification of United States General Ap-praisers, who imposed a duty of 15 per cent ad valorem on the work.

The decision grew out of the protest of H. O. Havemeyer, New York, against the duty assessed by the Collector at the Port of New York on a life-size work in marble representing the "Madonna and Child," executed in the fifteenth century by Mino da Fiesola. The entered value of the piece of art is 60,000 lire, equal to about \$10,966. According to the testimony in the case,

the head and neck (about one foot) of the figure of the Madonna is insulated, or "in the round," and the child substantially entirely so, but the remainder of the fig-ure of the Madonna is in alto-relievo, or ligh relief, standing out boldly some two nches or more from the background The article entire is "statuary," according to the definition of the term by pro-cessional sculptors and dealers in such

CAUSES TYPHOID FEVER.

Dr. Woodward's Opinion Concerning the Many Cases in Georgetown. The District Health Department has

een at a loss to account for the prevalence of typhoid fever in certain localities, where it manifested unusual persistence. Several houses on P Street, in Georgetown, between Thirty-fifth and stuff in the cars. We have yet made no Thirty-sixth Streets, were among those which specially atracted the attention of

wholesale effort to get new hands, but by this afternoon we shall undoubtedly have enough men to proceed as heretofore.

"We have not made and will not make any overtures to the men who left us without warning, and, as far as we are concerned, our relations with them are over. Since yesterday the strikers have not communicated with us. In short, we shall now go our own way and let them go theirs."

which specially atracted the attention of the Inspectors.

It has now been discovered that the houses in question are provided with drainage by openings made directly into a public sewer passing under the premises. The investigation also showed that other houses in Georgetown beside those in which cases of fever were found are provided with this kind of drainage.

Dr. William C. Woodward, the Health Officer, has submitted to the Commissioners a report upon the subject. In which

shall now go our own way and let them go theirs."

General Manager Chamberlain, is speaking of the strike, said:

"The strike is simply local. Our passenger traffic is not impaired. We have heard that the engineers, firemen and trainmen had been asked to strike in sympathy with the yard men, but they have not done so, and we do not expect them to. So far as we can find out, only about 125 have struck so far, and by this afternoon their places will have been filled."

POLLING IN GALWAY.

Officer, has submitted to the Commissioners of the Commissioners a report upon the subject, in which is takes the ground that the kind of drainage referred to is unsanitary, resulting in the presence of typhoid fever in several of the houses so drained and being in the nature of a menace to the public health.

By way of dealing with the problem, Dr. Woodward informs the Commissioners that he is doubt whether the owners of the property should be required to establish proper sewer and water conections, under the provisions of the Drainage act, approved May 19, 1896, or whether the matter should be dealt with under the head of defective plumbing. For that reason the Health Officer refers the question to the Commissioners, with a reson the Health Officer refers the question to the Commissioners, with a reson the Health Officer refers the question to the Commissioners, with a request for instructions.
